## Why We Are Opposing A Government Armor Plant

### To the People:

Some people say that the very fact that the Bethlehem Steel Company is so aggressively fighting the proposal to build a Government armor plant is conclusive proof that the Company is seeking to assure for itself the "vast profits" derived from private manufacture.

The fact is that armor making is the least profitable feature of steel manufacture.

The reason we oppose a Government plant is very simple. It is this:

Even though there is but little profit in the making of armor, we have invested over \$7,000,000 in our armor plant;

That plant is useless for any other purpose; if a Government plant is built the usefulness of our plant is destroyed.

**It would be good business for us to make armor for the Government at any price over and above the actual shop cost, RATHER THAN SACRIFICE OUR ENTIRE INVESTMENT.**

We do not seek to save big profits; our purpose is very frankly to save our armor plant—its built solely for the use of the Government—from going to the scrap heap.

**To do that, we are prepared to agree for any period to any terms of manufacture which the Federal Trade Commission shall say absolutely protects the Government of the United States.**

## A FAMOUS VICTORY

By F. A. MITCHEL.

A young man within the German lines in Alsace knocked at the door of a cottage. A girl came to the door, and he asked her if he might be accommodated for the night which was coming on. She called to her mother in the German tongue. The young man knitted his brows. He had expected to find French inmates.

The mother came and spoke to the stranger, speaking French with a German accent. He told her that he was traveling and since there was no other house near either she must admit him or he must bivouac for the night. She consented to admit him.

The young man was about twenty-two years old and handsome as a picture. A winning smile began to play about his lips the moment he spoke to the girl, and his eyes indicated his admiration for her. He said nothing about the terrible war that was going on nor did his hostess or her daughter. Nevertheless he assumed that they sympathized with the German cause. For France's lost province has at least as large a population of Germans as French. As to the young man, he was plainly French.

Now, though these persons did not talk about the war, it was evident that the visitor, being a Frenchman within the German lines, was living with a sword suspended over him. True, the country near about was not occupied by troops except in small bands, but any German soldier meeting a Frenchman there would require him to give an account of himself. At bedtime the stranger took a candle and went to the room that had been assigned him, locked the door after him and went to bed, but not to sleep. There was that on his mind that precluded sleep. Life was on the one hand, death on the other. He was liable to be clutched by death.

The girl about midnight, armed with a pair of pliers, went to the guest's door and, feeling with her implement for the end of the key, finally succeeded in turning it. Opening the door, she stole into the guest's room and to a chair beside the bed on which he had put his clothes. She was about to withdraw them when she felt a hand on her wrist.

"Let me go," she said in a low voice. "Certainly," said the visitor. "You have doubtless made a mistake in the room."

He released her, and she withdrew. He knew well what her object had been in trying to take his clothes. She suspected he was a spy and that in his pockets would be found papers containing information he was taking to the entente allies.

In the morning when he came down to breakfast and bade the girl good morning his face wore that same winning smile. She did not respond, evidently steeling herself against him. When he started on his journey she had on her hat and coat and gloves.

"I am going with you," she said.

"You are a spy, and I intend to turn you over to the first German officer we meet."

"Oh, no, you won't!"

"Why not?"

"Because they would stand me up and shoot me."

"I have considered all that."

"But when it comes to seeing me shot down you will regret what you have done."

All this the Frenchman said with that same irresistible smile on his lips.

"Give me the papers you are bearing and you may go free for all me."

"It is beyond your power to free me."

"Why so?"

"You have made a prisoner of my heart, and my heart will not be released."

It was evident that the shot had hit. The girl was winged. But she was not ready to surrender.

"My feelings may drive me one way, but my duty is driving me another. I am capable of sacrificing my feelings to my duty."

"Then do so."

The only weapon he carried was a revolver. Taking it from its holster at his hip he tossed it to her. It fell at her feet. He folded his arms and stood looking at her with that smile which was having the same effect upon her that the eye of a serpent would have on a bird.

"Do your duty to your fatherland. The papers you wish are on my person, but you shall not have them without first killing me."

She was not yet conquered. Taking up the weapon she cocked it, advanced to within a few feet of him, put the muzzle against his breast and said:

"Give me the papers or I will sacrifice you to my duty."

"I love you," was his only response.

"Once more, give me the papers."

"Once more, I love you."

They stood, the eyes of each fixed on those of the other. The battle waxed hot, but not with weapons of death. It was a fight of love against duty. Without that smile duty might have won.

Presently he saw victory for himself, defeat for her. Disregarding the weapon pressed against his heart he extended his arms, her hand sank slowly, he encircled her, drew her to him and kissed her.

When he went his way with his papers she returned to the house. Her sense of duty had given place to an all absorbing love.
